

In the Privacy of Your Own Heart...

As you meditate on what you just heard about building a foundation, what would you say is your foundation for your life?

Remember - don't just scratch the surface. *Dig deep.*

- What would you say is the foundation for your life, and what would you say that it consists of?
- Are you happy with your foundation?
- Are you happy with what's in there?
- Are you happy with what's *not* in there?
- If you had to rebuild your foundation or if you had the opportunity to rebuild your foundation, what stones would you cast away so they would not defile or weaken your foundation, and
- What stones would you gather together?
